

CALL FOR POSTERS

The Organising Committee of the Labex OT-Med 2019 conference (Marseille, October 14-16, 2019) invites **all researchers from all Labex members** to share their scientific results **relevant to OT-Med's research priorities** through this call for posters (WP1, WP2, WP3, TW1, TW2, see <http://www.otmed.fr/research> for details). Researchers who received Labex OT-Med funding since 2012 are particularly encouraged to participate. Posters will be shown throughout the conference. More information on the conference is available at <http://www.otmed.fr/conference2019>

Deadlines

15/07/19: send poster outline including : title (both in English and in French), principal investigator, project name, OT-Med's research priority that is addressed by the poster (WP and TWP), abstract (500 characters inc. spaces both in English and in French).

15/09/19: send poster draft electronically to contacts below in order to organise tentative groupings.

Posters must include:

- Title in French and English
- Principal Investigator's name and email address
- Summary: 500 characters (inc. spaces) in English and in French
- OT-Med's research priority relevant to the project
- Scientific question
- Main result with 1 to 3 illustrations
- Project name and participating members, as well as published articles and PhD projects stemming out of the project (at bottom of poster).

14/10/19: Please bring poster at reception upon conference opening.

Practical information:

- Posters are in English (except title and summary that are both in English and French)
- Posters must be readable in 3 minutes
- Smallest font must be readable from at least 2 m away.
- Please address a non-specialist interdisciplinary audience.
- Size: A0 (84 cm wide by 119 cm high) with eyelets in each corner.

Contacts and submission: France Van Wambeke (MIO-CNRS, france.van-wambeke@mio.osupytheas.fr) and Olivier Chanel (AMSE-CNRS, olivier.chanel@univ-amu.fr)
